Message from the Guest Editors

As we approach 2020, it should not be a surprise to anyone that digital technology and software adoption are happening in almost every sector of multiple industries. Industries are looking forward to adaption of innovative technologies, i.e. industry 4.0 technologies, for staying ahead and enhancing productivity, and construction is no exception. In these circumstances, many construction firms are taking steps to digitize for improving communication and connectivity of different parts of their businesses. Construction projects are complex in nature, but technology can help simplify the complex processes. The intention of this special issue is to offers a platform to explore state-of-the-art knowledge, cutting-edge innovations, and practical implementation in the area of technology development in construction industry. Contributions that have significant impact on solving construction problems are particularly encouraged. All types of scientific contributions including technical and critical review papers are eligible for publication, if they fit within the wider scope of this special issue and are relevant for a world-wide audience.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
