### Message from the Guest Editors

Dear Colleagues,

The importance of sustainability across all aspects of the agro-food system has never been so important. Sustainability is increasingly impacting all players within the agro-food system and will continue to influence the structure, nature and innovations in supply chains into the future.

This Special Issue will explore innovative approaches to sustainability within food systems by including the perspectives of all players, from primary producers to consumers, and from economic, social and environmental angles. Research areas may include (but are not limited to) the following:

- Producers, processors, retailers and consumers innovating and responding to sustainability across supply chains
- Economic, social or environmental innovations to advance food sustainability
- Innovations in sustainable agriculture, fisheries and rural development in advanced, emerging and developing economies
- Smart and new technologies in agriculture
- Food waste, recycling and upcycling
- Changing consumer behaviour
- Advancing sustainable food packaging
- New approaches to policies and incentives

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
