Territory and Construction
Engineering, University of Pisa,
56122 Pisa, Italy

Message from the Guest Editors

The Special Issue focuses on the Sustainable Integration of Renewable Power Generation Systems, to gather knowledge on innovation, research, and demonstration activities and results in energy conservation, conversion, renewable technology penetration and improved energy efficiency, in order to be an overall framework for scientists, researchers, policy and decision makers. They may include different territorial scales (country, city, district, single building unit), cross-cutting technologies, energy-related products and services, the identification of parties and roles (producers, users, aggregators, etc.), as well as energy, environmental, social and economic impacts of sustainable integration strategies.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
