Message from the Guest Editors

Dear Colleagues,

This Special Issue addresses the topic of “Sustainability in International Trade” and it will comprise a selection of papers analyzing the relationship among environmental sustainability and international flows of goods. The impact of expanding international trade on the prospects of global sustainability from an environmental perspective is a challenging topic for economists, policy makers, and the like.

This Special Issue calls for research contributions that elaborate on sustainable practices related to international movements of goods, transport policies, and global logistic strategies. Theoretical contributions, as well as empirical and policy-oriented analyses are welcome.

Suitable topics include but are not limited to the following:

- Trade specialization and natural resources depletion
- Trade movements and transport pollution effects
- Supply chain sustainability and fragmented production
- Trade agreements and environmental regulations
- International competitiveness, markets competition, and ecological footprint
- Energy efficiency and intermodal transport
- Sustainable development and trade provisions

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
