Message from the Guest Editors

This Special Issue will focus on international finance and money markets, with particular attention given to the issue of sustainability. In a disruptive era, the most important question is how financial decisions can create sustainable value for the stakeholders. It is also crucial to understand how corporate governance influences corporate outcomes and policies. In addition, investors need to understand international finance in order to diversify their portfolios globally. This Issue welcomes papers that provide a better understanding of financial decisions in a disruptive era. Topics include international financial management, capital structure decisions, capital budgeting decisions, corporate governance, risk management, financial contagion, financial technologies, portfolio management, mutual funds, derivative markets, performance evaluation, and sustainability.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
