Control and Communications Systems Department, Universidad Nacional de Educación a Distancia, Calle de Bravo Murillo, 38, 28015 Madrid, Spain

Dr. Antonio Robles-Gómez

Computer Engineering Faculty, Universidad Nacional de Educación a Distancia, 28040 Madrid, Spain

Deadline for manuscript submissions:

closed (30 June 2021)

Message from the Guest Editors

Dear Colleagues,

IoT systems consist of many distributed heterogeneous devices that generate consistent amounts of data. The development of IoT technologies will facilitate the quality of life of society in the immediate future, and learning about them is fundamental to the industrial development of countries. Besides this, it is important to be able to contribute with experimentation based on theoretical knowledge.

This Special Issue focuses on all the IoT technologies involved in improving the teaching and learning process, topics, and the methodologies that involve the use of IoT devices to improve the sustainability of the learning process.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
