Deadline for manuscript submissions: closed (31 May 2023)

Message from the Guest Editors

Dear Colleagues,

Recent advancements in the state-of-the-art technologies for smart cities have enabled IT-based infrastructure that can support civilians where required, as well as efficiently manage diverse components. They include the collection of diverse sensor data and the monitoring and management of community services. Specifically, in the aspects of sustainability, systems for smart cites should meet requirements such as real-time processing, high reliability, high fault tolerance, high security and privacy, and high quality of service.

This Special Issue solicits the submission of high-quality unpublished review and research articles that aim at addressing technical issues and challenges associated with IoT technology for sustainable smart cities of the future. Submitted papers should emphasize the development of IoT technology and focus on the performance evaluation and comparison using existing standards and practices. Both theoretical and experimental studies on practical applications are encouraged.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
