Yongin-si 17104, Republic of  
Korea

**Dr. Heeyoung Lee**

Department of Civil Engineering,  
College of Engineering, Chosun  
University, 309-1 Pilmun-Daero,  
Dong-Gu, Gwangju 61453,  
Republic of Korea

Deadline for manuscript  
submissions:

**15 November 2024**

### Message from the Guest Editors

The goal of this Special Issue is to disseminate original research and review studies that address the (experimental or theoretical) advances, trends, challenges, and future perspectives regarding the development, mixture, characterization, and use of green composite concrete materials. The followings are some of the topics proposed for this Special Issue:

- The dispersion, mixture, and hydration of green composite concrete materials;
- The enhancement of mechanical properties of green composite concrete materials;
- Multi-functional application (sensing, heating, and curing,);
- The effect of green composite concrete materials on durability and long-term performance;
- CO<sub>2</sub> valorization, sequestration, and utilization by green composite concrete materials;
- Developing new efficient and sustainable construction materials using carbon-neutral technology;
- Innovative applications for the construction industry.

an Open Access Journal by MDPI

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
