Deadline for manuscript submissions:

**closed (9 October 2023)**

### Message from the Guest Editor

Dear Colleagues,

Biodiversity loss continues to be a global challenge. One of the main causes is habitat loss and ecosystem degradation. The protection of suitable habitats, but also the restoration of degraded habitats, therefore play important roles in the protection of biodiversity. In addition, concepts of sustainable land use and sustainable ecosystem management are needed which combine conservation goals and human interests.

In this Special Issue, aspects of biodiversity and nature protection as well as possible solutions for sustainable ecosystem management will be discussed. We welcome manuscripts on the following topics:

- Ecosystem restoration and species protection
- Biodiversity conservation and sustainable land use
- Concepts for sustainable ecosystem management
- Innovative strategies for nature conservation
- Trade-offs in biodiversity conservation

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
