### Message from the Guest Editors

This Special Issue focuses on the utilization of biomass energy as a means of promoting sustainable development that spans across developed and developing countries and fosters a greener future.

Original research articles and reviews are welcome for this Special Issue. Research areas may include, but are not limited to the following:

- Sustainable forests energy.
- Renewable biomass energy.
- Biomass fuel briquettes.
- Biomass energy and community livelihoods.
- Public health and biomass energy.
- Biomass and circular bioeconomy.
- Efficient and sustainable biomass supply chain.
- Technological advancements in biomass conversion processes.
- Policy frameworks for biomass energy systems.
- Environmental and social impacts of biomass production and utilization.
- Challenges and opportunities associated with biomass energy usage.

We look forward to your valuable contributions to this Special Issue.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
