Message from the Guest Editors

The purpose of this Special Issue is to inspire more efforts and studies to provide scientific, technical, and political strategies for the better management of wastes and wastewater. This Special Issue aims to publish recent advances in the basic research and technical development of waste management and wastewater treatment. The Special Issue accepts review papers, original research articles, communications, and perspective papers. Topics relevant to the scope of this Special Issue include, but are not limited to, the following:

- Wastewater containing heavy metals;
- Wastewater containing organic pollutants;
- Wastewater containing nutrients;
- Desalination;
- Microplastics;
- Industrial wastes;
- Sewage sludge;
- Agricultural and forest residues;
- Adsorption;
- Advanced oxidation process;
- Resource recycling.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
