Deadline for manuscript  
submissions:

**closed (30 November 2021)**

### Message from the Guest Editors

Dear Colleagues,

The recent Covid-19 pandemic has thrown into even sharper relief the role that nature and green neighborhoods play in human health. Despite long-standing research on the benefit of access to nature for human health, there is still uncertainty in the policy, planning, and design fields on exactly what types of nature can lead to which types of benefit, and for whom.

This Special Issue is dedicated to studies that aim to improve the knowledge base regarding how best to employ nature in an urban context to improve the mental health and wellbeing of citizens, and to reduce health disparities, but also to papers that help practitioners at different levels to make the best possible use of the knowledge that is already there. More specifically, we welcome original articles, reviews, communications, brief reports, case studies, perspectives, opinions, concept papers, and essays dealing with mental health and wellbeing in relation to:

- green/blue infrastructure
- mental health
- wellbeing
- open space
- urban design
- biophilia
- salutogenic design

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
