Message from the Guest Editors

Dear Colleagues,

This Special Issue focuses on the exploration and analysis of inter-disciplinary methods, tools and policies supporting transitions to a low-carbon economy. Emphasis is placed on the role that land, water, and energy sectors may play in such an effort. Issues that will be investigated concern:

- Land use management under climate change conditions
- Energy mix: Towards a zero impact society
- Low-carbon economies and territorial transformations
- Sustainable management of the land-water-energy (LWE) nexus
- Smart management of water resources in the urban and rural space
- ‘Green Deal’ and clean energy solutions

Deadline for manuscript submissions:

closed (30 April 2022)

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
