# **Ecological Engineering and Circular Economy**

Guest Editors:

### Prof. Dr. Dina M.R. Mateus

Techn&Art, Centre for Technology, Restoration and Art Enhancement, Instituto Politécnico de Tomar, Estrada da Serra, 2300-313 Tomar, Portugal

### Prof. Dr. Henrique J.O. Pinho

Ci2, Smart Cities Research Center, Instituto Politécnico de Tomar, Estrada da Serra, 2300-313 Tomar, Portugal

### Dr. Petre Bretcan

Department of Geography, Faculty of Humanities, Valahia University of Târgoviste, 130105 Dambovita, Romania

Deadline for manuscript submissions:

31 August 2024

## **Message from the Guest Editors**

Considering that the main goals of the Circular Economy consist of simultaneously reducing the depletion of natural resources and mitigating the generation of waste, Ecological Engineering tools can be applied to attain those goals.

This Special Issue aims to provide an opportunity for researchers to share their findings and insights on how to advance these fields and promote sustainability, including education and public engagement, which are critical routes to promoting awareness and understanding of Ecological Engineering and the Circular Economy.

Research areas may include (but are not limited to) the following:

- 1. Bioeconomy;
- 2. Bioenergy systems and renewable energy;
- 3. Biomimicry;
- 4. Circular economy of biological resources;
- 5. Ecosystem restoration and conservation;
- 6. Environment protection;
- 7. Freshwater management and conservation;
- 8. GIS applications to resources management;
- 9. Green infrastructures:
- 10. Industrial ecology.
- 11. Life cycle assessment;
- 12. Nature-based solutions;
- 13. Resource recovery;
- 14. Sustainable agriculture and forestry.

### **Editor-in-Chief**

### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

## **Message from the Editor-in-Chief**

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
