Message from the Guest Editors

Given the importance of the relationship between urban greening, agriculture and soil quality, we are pleased to launch a new Special Issue titled “The Relationship between Urban Greening, Agriculture and Soil Quality”.

Discussions surrounding soil ecology, urban soils, chemical and physical soil parameters, soil fertility, agriculture, soil quality and biological properties of the soil are welcome. These will support assessments and provide evidence of the relationship between urban greening, agriculture and soil quality for the conservation, rehabilitation and restoration of urban landscapes, thus, improving soil fertility and agricultural production.

Hence, this Special Issue, of the journal Sustainability, invites the submission of manuscripts on the above-mentioned topics.

Deadline for manuscript
submissions:

closed (15 December 2023)

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
