Islamic Finance and Economy Program, College of Islamic Studies, Qatar Foundation, Hamad Bin Khalifa University, Doha 34110, Qatar

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

Sustainable development is defined as development that meets the needs of the present without compromising the ability of future generations to meet their own needs (International Institute for Sustainable Development). The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by the United Nations in 2015 as a universal call to action to end poverty, protect the planet and ensure that by 2030, all people can enjoy peace and prosperity. These goals are, in turn, also shaping both global and local financial markets. In particular, policymakers have introduced financial market regulations to manage investments' environmental, social and governmental risks. The importance of strengthening the regulatory framework for sustainable development further to increase the transparency and accountability of financial institutions has also been recognized by investors and firms.

This Special Issue calls for empirical studies to provide a wide range of investigations related to “Sustainable Development and Financial Markets”.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
