Message from the Guest Editors

Covid-19 has changed our lives—the way we approach everyday life, and our vision of the future. In addition to the heavy toll of human lives and the impact on everyday life, the pandemic brings with it far-reaching economic damage, the first consequences of which are beginning to be felt. Faced with the challenges and risks that emerge on the horizon, companies are rightly worried about the repercussions for their employees and their business in the immediate future as well as for the impacts in the near future.
