Message from the Guest Editor

Waste management and sustainable practices are critical components of contemporary environmental science. This Special Issue focuses on the latest advancements and innovative approaches in this vital field. Recent advancements include new technologies for waste treatment, innovative recycling processes, and the implementation of circular economy principles. These innovations not only help in reducing the environmental footprint but also contribute to economic development by creating green jobs and promoting sustainable industries.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Innovative waste treatment technologies;
- Recycling and resource recovery;
- Circular economy and zero waste strategies;
- Policy and regulation;
- Behavioral and societal aspects;
- Life cycle assessment and environmental impact;
- Case studies and best practices.

I look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
