Message from the Guest Editors

The studies by Narver and Slater and Kohli and Jaworski on market orientation created a starting point for a boom in the market orientation research, providing the background for the proposal of several theoretical and empirically tested measurement models to assess market orientation like the MKTOR and the MARKOR scales.

The early developments of the market orientation discipline, despite their intensity, were mainly directed toward the industrial and consumer goods sectors. However, in the 21st century, attention increased on the market orientation research field in the service sector, and particularly on the hospitality and tourism industries. The tourism industry depends on hotels and restaurants to provide accommodation and food, and it is a critical industry influencing economic development and employment, and social and environmental variables.

In this context, we invite authors, especially those interested in the market orientation research field and from a broader perspective on strategic marketing and strategic management, to submit research articles mainly focused on the tourism and hospitality industries.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
