### Message from the Guest Editors

Dear Colleagues,

This Special Issue (SI) explores academic, conceptual, methodological, or application-based research work conducted across the globe, with a strong connection to technological development and/or the analysis of mobility/transportation projects.

### Suitable topics include but are not limited to:

- \* Integration of spatial analysis and sustainability in transport and mobility
- \* Regional and urban case studies of transport
- \* Epistemological considerations for transferable information in mobility
- \* Economics of transport and mobility
- \* Cities as hubs of connectivity: ports, terminals, hot-spots
- \* Urban-rural dichotomies and digitalization
- \* Experimental analyses of eco-efficient transport
- \* Comparative studies of transport emissions
- \* Transport geography
- \* Local lessons of smart mobility
- \* Policy studies of mobility and transport
- \* Social aspects of movement with respect to digitalization

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
