

Energy Management of Multi-Energy Storage Systems

Guest Editors:

Prof. Dr. Reza Sabzehgar

Electrical and Computer
Engineering Department, College
of Engineering, San Diego State
University, San Diego, CA, USA

Prof. Dr. Mehrdad Moallem

Simon Fraser University,
Burnaby, Canada

Deadline for manuscript
submissions:

closed (30 June 2021)

Message from the Guest Editors

The special issue on Energy Management of Multi-Energy Storage Systems welcomes original research papers and reviews. Topics include, but are not limited to the following:

Technology and applications of different types of battery storage systems such as electrochemical, chemical, mechanical, electrical and thermal energy storage systems

Modelling, control, optimization, and engineering aspects of energy storage systems

Demand response and power management using energy storage systems in the presence of renewable energy generation

Applications and requirements of energy storage technologies in grid-scale electrical storage, transportation electrification, off-grid systems, uninterruptible power supplies, and portable electronic applications

Control and management of large-scale distributed storage systems including vehicle-to-grid, integrated residential/commercial energy storage, and multi-purpose and hybrid storage systems

an Open Access Journal by MDPI

Editor-in-Chief

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
