Message from the Guest Editors

Dear Colleagues,

The Special Issue (SI) “The Nexus of Natural and Human-Made Capital in Environmental Crisis Management” will reveal complementarities between “natural capital” and “human capital”, and thus to disclose particular features of “strong sustainability”. The Special Issue invites contributors, through their analytical approaches, to find answers to a wide variety of concerns such as “Is reconciliation between weak and strong sustainability possible?”, “How can we maintain or restore the natural capital to close the sustainability gap and what are the costs of so doing?” (*as per* Ekins et al. 2003), “What are the leverage points to align the circular economy to the strong sustainability philosophy?”, “What is the place of green consumption within strong sustainability?”, “What is the role of ethics of strong sustainability and stakeholders in sustainability science” (*as per* Dedeurwaerdere, 2014), among other questions.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
