Deadline for manuscript
submissions:

1 October 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to focus on sustainable issues in the energy sector, especially economic management issues related to renewable energy and power systems. This issue encourages the publication of papers on any aspect and scale of green energy production or utilization technology to contribute to sustainable human development. The main focus is the prediction of renewable energy indicators, including prices, power, rates, etc. This also includes but is not limited to carbon capture and energy storage, wind energy, bioenergy, solar energy, photovoltaics, and traditional fuels. In addition, system analysis, environmental issues, energy conversion, and utilization issues will also be included.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
