Deadline for manuscript
submissions:

closed (29 February 2020)

Message from the Guest Editors

Dear Colleagues,

We invite submissions to a Special Issue of *Sustainability* on “Optimization in Logistics and Mobility Using Metaheuristics”. This Special Issue will focus on innovative methods to solve realistic or real-life optimization problems arising in the transportation of either goods (logistics) or people (mobility).

Contributions that focus on the sustainability aspects of optimization in logistics and mobility are especially welcomed (e.g., minimizing the ecological footprint). We encourage the submission of papers that discuss real-life optimization problems and acknowledge that it might be difficult to perform a strictly computational comparison of the algorithms developed to solve these problems.

Prof. Dr. Kenneth Sörensen

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
