Message from the Guest Editors

This Special Issue therefore focuses on themes relevant to these issues, which could not be more relevant to a sustainable future:

Lessons learnt from the Covid-19 experience—whose health has benefited from access to local landscapes, whose health has not benefited in this way, and what needs to change for the future in light of this;

What are the challenges for inclusive access to landscapes for health among economically deprived groups and people from black and minority ethnic groups and how can they best be addressed?

Evidence of successful interventions to increase the equity of access to outdoor environments and, thereby, to reduce health inequalities.

Links between access to public outdoor space, including green/blue space, and health in the Global South, etc.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
