Message from the Guest Editors

Dear Colleagues,

Industry 4.0 represents the fourth industrial revolution and will offer wide prospects to gain competitive advantages and establish future sustainable supply chain practices. However, the implementation of I4.0 in SC remains in its infancy. Going forward, there is a need to explore how the Industry 4.0 helps organizations to monitor metrics on an ongoing basis, troubleshoot poor performance, and identify root cause, as well as enable the delivery of better business decisions and provide tremendous benefits through the improvement of business processes.

In this Special Issue, we are looking for high-quality original research articles related (but not limited) to the following topics:

Environmental, social and governance (ESG) in supply chains;

Sustainable supply chain optimization in Industry 4.0;

Product/service tracibility with blockchain in supply chain ;

Use of simulation-based advanced data analytics for sustainable supply chain design;

Big data/artificial intelligence-driven e-commerce supply chains;

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
