Department, Istanbul Technical  
University, 34469 Istanbul, Turkey

**Dr. Burcin Atilgan Turkmen**

Chemical Engineering  
Department, Bilecik Seyh Edebali  
University, 11230 Bilecik, Turkey

Deadline for manuscript  
submissions:

**closed (31 May 2024)**

### Message from the Guest Editors

A huge spectrum of human activities, ranging from industrial production to transportation, requires substantial amounts of energy input, which consumes natural resources and/or generates unwanted burdens on the environment. Sustainable and cleaner energy technologies must overcome environmental problems, without threatening the ever decreasing natural resources.

The aim of this Special Issue is to present the progress achieved in sustainable and cleaner energy technologies, especially focusing on environmental, social and economic impacts, storage issues, emerging technologies, hybrid systems, policy development, conversion and management. Both research articles and reviews are welcome.

Research areas may include (but are not limited to):

- Sustainable and cleaner energy sources;
- Energy from waste;
- Energy conversion and management;
- Sustainable solutions to energy requirements;
- Environmental, social and economic impacts of energy sources;
- Hybrid renewable systems;
- Emerging technologies;
- Environmental impacts of energy sources;
- Sustainable and cleaner energy for industry;
- Energy storage;
- Sustainable and cleaner energy policy and economy.

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
