Message from the Guest Editor

Dear Colleagues,

This Special Issue is designed to invite novel and insightful research and review articles from the scientific community. The scope of this Special Issue includes recent research and review works related to renewable and sustainable energy systems for industrial, manufacturing, and residential applications for a circular economy. Papers selected for this Special Issue will subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, developments and applications. Special focus will be on the areas of:

- Sustainable utilization of renewable energy resources (i.e., hydrogen energy).
- Electric vehicle and vehicle-to-grid optimization.
- Energy storage and management systems.
- Industrial process heating system.
- Clean energy for circular economy.
- Sustainability and energy policy.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
