

Renewable Energy, Smart Grid Technologies and Sustainable Energy Management: Challenges and Opportunities

Guest Editor:

Dr. Ehsan Naderi

Department of Electrical
Engineering, College of
Engineering and Computer
Science, Arkansas State
University, Jonesboro, AR 72401,
USA

Deadline for manuscript
submissions:

15 September 2024

Message from the Guest Editor

For this Special Issue, original research articles and reviews are welcome. Research areas may include but are not limited to the following:

- Artificial intelligence, machine learning, and optimization;
- Cybersecurity;
- Electric transportation systems;
- Energy management systems for EVs and renewable-based microgrids;
- Environmentally friendly processes to extract lithium;
- Green technologies;
- Internet of things (IoT) and the energy industry;
- The opportunities and challenges associated with high-voltage direct current (HVDC) transmission systems supporting renewable energy integration;
- Lithium-ion battery energy storage solutions for grid-scale projects;
- Power systems (and their operation, planning, control, optimization, and security);
- Power electronics applications in renewable energy systems;
- Renewable energy and smart grid technologies;
- The role of renewable energy technologies in environmental protection;
- Virtual power plants for a more resilient and sustainable grid.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
