

## Emerging Photovoltaic Materials for High-Performance and High-Stable Photovoltaic Applications

Guest Editors:

**Dr. Donghyeop Shin**

**Dr. Hun Park**

**Dr. Nikolai Tsvetkov**

**Prof. Dr. Jun Hong Noh**

Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

This special issue aims to discuss the state-of-the-art advances in various PV applications including inorganic (e.g., Si, CIGSSe, CZTSSe), dye-sensitized, organic, and organic-inorganic hybrid (i.e., perovskite) solar cells. Thus, we would like to invite authors to submit their original and high-quality research articles or review papers on novel PV material design/synthesis, device structure, and material/device processing, advanced characterization technologies and modeling toward high-performance/stable photovoltaic devices.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
