### Message from the Guest Editors

In this Special Issue we seek high-quality research papers that address novel sustainability issues in production and operations management to advance knowledge and practice in sustainable operations. Both theoretical and empirical methodologies are welcome. Topics of interest include but are not limited to the following:

- Production and operations management under emission regulations.
- Sustainable operations driven by analytics.
- Game-theoretical analysis in operations management with sustainability considerations.
- Closed-loop supply chain management.
- Sustainability in inventory management.
- Socially responsible production and operations management.
- Social equity in production and operations management.
- Sustainability in behavioral operations management.
- Sustainable agricultural operations.
