Dr. Luna Leoni

Department of Management and Law, Tor Vergata University of Rome, 00133 Rome, Italy

Dr. Marco Ardolino

Department of Mechanical and Industrial Engineering, University of Brescia, 25121 Brescia, Italy

Deadline for manuscript submissions:

31 July 2025

Message from the Guest Editors

We are pleased to announce a Call for Papers for the Special Issue "*Knowledge Management and Digital Transformation in Sustainability*". This Special Issue aims to explore the intersection of knowledge management (KM), digital transformation (DT), and sustainability, focusing on how organizations leverage knowledge and technology to achieve sustainable development goals.

As the world faces increasing challenges, organizations—of any size and in any sector—need to be able to rely on specific tools and strategies to optimize their operations, reduce waste, and achieve long-term sustainability goals (Awan and Sroufe, 2022; Baiocco et al., 2023; Barbosa et al., 2020).

Thus, this Special Issue aims to explore their critical role in driving sustainable practices across various sectors, disciplines, and perspectives to provide a comprehensive view of their intersection.

- knowledge management
- knowledge management processes
- digital transformation
- digital technologies
- sustainability
- sustainable development

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
