Message from the Guest Editors

Dear colleagues,

The world has reached the halfway point of the post-2015 development agendas. Despite progress in planning and implementing initiatives for disaster risk reduction, the current trends of local and global hazards, along with unexpectedly frequent and intensified climatic events, have presented significant challenges in translating the global frameworks into local initiatives that are sustainable and meaningful for the most vulnerable populations.

This special issue of Sustainability seeks to bridge the gap between disaster risk reduction (DRR) and sustainability in the discourse and implementation of disaster prevention and response. Authors are invited to reconsider the impact of policies, initiatives, projects, and other efforts aimed at building resilience by focusing on their sustainability over time, their impacts on communities and stakeholders, localising the global frameworks, and identifying gaps beyond the post-2030 global agendas. Original research articles and reviews are welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
