Deadline for manuscript
submissions:

1 March 2025

Message from the Guest Editors

Our Special Issue, entitled “Sustainable Climate Action for Global Health”, is dedicated to exploring the critical intersection of climate action and public health through a lens of sustainability. Our focus lies in elucidating the myriad ways in which addressing climate change can profoundly impact global health outcomes, with an emphasis on long-term viability and equity. From examining the ramifications of climate change on the spread of infectious disease or on food-systems to exploring innovative strategies for building resilient cities as well as healthcare infrastructure, this Special Issue seeks to provide a comprehensive understanding of the challenges and opportunities at hand.

Furthermore, our Special Issue aims to complement the existing literature by offering fresh insights, diverse perspectives, and practical solutions, and by synthesizing the latest research findings and highlighting the importance of sustainability in climate action, we hope to contribute to ongoing scholarly discourse and inspire actionable steps towards a healthier, more sustainable future for all.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
