

Sustainable Agricultural Engineering: Agroecology Sustainable Development and Agriculture Environmental Impact Assessment and Measurement

Guest Editors:

Prof. Dr. Nan Sun

School of Water Conservancy and Civil Engineering, Northeast Agricultural University, Harbin 150030, China

Dr. Kun Cheng

School of Water Conservancy and Civil Engineering, Northeast Agricultural University, Harbin 150030, China

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Impacts on greenhouse gas reduction after sustainable agroecology development.
- Impacts on soil organic carbon stability after sustainable agroecology development.
- Assessment and measurement of the impact of sustainable agriculture on the agri-environment.
- Bio-organic fertilizer replacement of chemical fertilizers to improve sustainable agricultural quality and efficiency technology.
- Beneficial microorganisms, bio-organic fertilizer development and impacts on agro-ecosystem sustainability potentials.
- Policy formulation for the sustainable management of regional/global sustainable agricultural in response to serious environmental impacts in agricultural systems, etc.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
