### Message from the Guest Editor

This Special Issue invites authors to contribute with papers addressing the role of BPM in contemporary organizations. It welcomes research work as well as practical applications connected with the organizational introduction of emerging technologies such as the Internet of Things (IoT), cloud computing, Industry 4.0, business intelligence, and process mining. It also encourages the submission of papers addressing the role of business process management in the adoption of contemporary management practices, such as lean management, sustainability management, and agile management.
