

Utilizing Artificial Intelligence as a Means to Achieve Sustainable Development

Guest Editors:

Prof. Dr. Hongjun Wang

School of Computing and Artificial Intelligence, Southwest Jiaotong University, Chengdu 611715, China

Prof. Dr. Peng Jin

School of Electronic Information and Artificial Intelligence, Leshan Normal University, Leshan 614000, China

Dr. Yanru Chen

School of Computer Science, Sichuan University, Chengdu 610017, China

Deadline for manuscript submissions:

closed (2 July 2024)

Message from the Guest Editors

This Special Issue aims to collate research exploring the rapid and close integration of artificial intelligence and sustainable development and the application of such integrated mechanisms across various fields and disciplines.

Potential topics include (but not limited to) the following:

- Application of artificial intelligence;
- Application of machine learning;
- Application of data mining;
- Application of artificial intelligence in education;
- Application of artificial intelligence in electric power;
- Application of artificial intelligence in transportation;
- Application of artificial intelligence in manufacturing;
- Application of artificial intelligence in construction;
- Application of artificial intelligence in city;
- Application of artificial intelligence in natural language processing;
- Artificial intelligence interdisciplinary science.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
