Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editors

Dear Colleagues,

The Special Issue aims to focus on the emerging treatment modes applied to wastewater treatment and water reclamation, and recovery of energy and value-added products. Research areas may include but not limited to:

- Natural wastewater treatment systems;
- Water reclamation, recycling, and reuse;
- Advanced water reclamation and reuse technologies;
- Membrane technology for wastewater treatment: water reuse and resource recovery;
- Anaerobic wastewater treatment for energy and water recovery;
- Energy self-sufficiency in wastewater treatment plants;
- Microbial fuel cells in energy and resources recovery from wastewater treatment;
- Algal treatment of wastewater for resources recovery;
- Nitrogen and phosphorus recovery;
- Wastewater to biogas recovery;
- Circular city concept for future wastewater treatment biorefineries;
- Wastewater to r3—resource recovery, recycling, and reuse efficiency in urban wastewater treatment plants;
- Energy and resources recovery from wastewater treatment systems;
- Sludge to energy and value-added products

- Advanced pre-treatment technologies for biosolids (sludge) treatment.

Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
