Message from the Guest Editors

Dear Colleagues,

New tourism and transport infrastructure, new attractions and tourism products have been created, and cultural and natural heritage resources are being increasingly utilized in tourism for local and regional development. All this has created a need to discuss and critically evaluate transport infrastructure, accessibility and other issues linked to growing tourism sectors.

We would like to know how transport transforms tourist destinations in contemporary world. We hope that sustainable tourism and sustainable transport to and within tourist destinations could be considered as a new way of thinking and practising tourism.

This Special Issue calls for theoretical, methodological, and empirical case studies illustrating the diversity of the role of transport infrastructure in sustainable tourism development, transport and accessibility changes, transitions and formations that influence, guide and control tourism development in different temporal and spatial scales and settings.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
