submissions:

closed (18 October 2021)

Message from the Guest Editors

Dear Colleagues,

The scope of this Special Issue covers but is not limited to the following topics:

1. Sequential routes of biomass conversion for marketable biofuels
2. Circular bioeconomy for zero-waste/emissions
3. Anaerobic biorefinery
4. Routes of whole biomass utilization
5. Thermochemical conversion of biomass and derived wastes
6. Biofuel combined with phyto-/phyco-remediation
7. Energy recovery from fat, oil, and grease (FOG)
8. Microbial-mediated lignocellulose conversion to biodiesel
9. Microbial fuel cells (MFCs) for waste recycling and energy production
10. Waste energy recovery
11. Insect farming for sustainable feed and food production

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
