Message from the Guest Editors

Dear Colleagues,

This Special Issue on climate adaptive reforestation and forest restoration will include emerging issues for understanding the meaning of climate adaptive forest restoration and reforestation topics, such as restoration and reforestation sound and update goals, promotion the need and the mean for successful restoration and reforestation projects, new knowledge on plant adaptation mechanisms on climate changes. It will also include papers focus on appropriate plant species selection for each site conditions, innovative techniques for tree material production in the nurseries, quality control of targeted forest reproductive material, advanced establishment techniques, post-planting treatments, and silviculture of aforested areas.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
