Message from the Guest Editors

Although the multi-disciplinary concept of ‘innovation’ has been debated in a wide range of contexts, recent calls for net-zero greenhouse gas solutions have meant ‘eco-innovation’—a relatively new topic and an essential ingredient that can help extend the frontiers of innovation research. There is a growing interest in understanding the interplay between eco-innovation practice and sustainable business performance.

This Special Issue seeks to extend and offer novel insights relating to cross-cutting themes on eco-innovation and sustainable business performance in emerging markets. The call elicits cutting-edge research in sustainability, including, but not limited to:

- Eco-innovative practices and sustainability business performance;
- Eco-innovative practices and sustainability reporting/reports and disclosures;
- Eco-innovative practices, governance and sustainable growth/performance;
- Climate change and eco-innovation;
- Environmental performance and corporate governance;
- Green technology and business performance;
- Sustainable finance, energy efficiency and SME performance.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
