# Sustainable Development Goals (SDGs) in the Food Supply Chain Continuum

Guest Editors:

### Prof. Dr. Ilija Djekic

Food Safety and Quality Management Department, Faculty of Agriculture, University of Belgrade, 11080 Belgrade, Serbia

#### Prof. Dr. Anet Režek Jambrak

Faculty of Food Technology and Biotechnology, University of Zagreb, 10000 Zagreb, Croatia

Deadline for manuscript submissions:

closed (30 September 2021)

## **Message from the Guest Editors**

The aim of this Special Issue is to collect research papers related to various sustainable development goals from a food supply chain perspective. We especially welcome review articles that describe the current state of the art in relation to food sustainability.

Potential topics include, but are not limited to, the following:

- Perspectives of ending poverty through sustainable food systems
- Role of sustainable diets in decreasing the number of the undernourished and in preventing malnutrition
- Sustainable food production and sustainable food consumption
- Trust in the food supply chain from a sustainable point of view
- Consumer perceptions related to sustainable food consumption
- Risks and benefits of using oceans, seas, and marine resources in food sustainability
- Food-water-energy nexus
- Climate change and food safety
- Combating climate change effects on food production
- Perspectives for decreasing the effects of climate change on sustainable food production
- Food and environmental law in promoting sustainable deploymental
- sustainable de elor montana Classus
