Message from the Guest Editors

Sustainable Finance thus aims to contribute to Sustainable Development, financing, for example, society's needs for innovation, conservation, and infrastructure, and promoting an efficient economy in the use of resources, minimizing negative impacts on the Environment (for example, favoring low carbon emissions) and in Society (for example, at the level of local communities). At the same time, Sustainable Finance aims to contribute to the stability of financial markets, through the consideration of social, environmental, and corporate governance risks associated with the activities of agents in those markets.

This Special Issue focuses on the relationship between social and environmental accounting (SEA) and sustainable finance. The purpose of this Special Issue is to motivate research that links these two areas and presents evidence of their interconnections and of their relationship with the United Nations Agenda 2030 Sustainable Development Goals (SDGs). Papers that answer research questions applied to companies in the private and public sector and companies in the non-profit sector are welcome to be submitted for publication in this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
