Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

Dear Colleagues,

I would like to invite you to submit your latest research to this Special Issue of *Sustainability*.

Social Farming is a global phenomenon with heterogeneous approaches, different shapes, and intersector relationships, but also common characteristics and activities. Social Farming includes social services in rural areas such as education, healthcare, and work inclusion, as well as products to meet modern society demand. Despite the global diffusion and impact today, social farming in agriculture still lacks an adequate legislative and operative definition to support it.

The diffusion of social farming and its economic and social impact have therefore increased the need to esteem the “value” it produces from a model of “welfare” to a model of “welfare society”...

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
