Sustainability and Indoor Environmental Quality

Guest Editors:

Dr. Mateja Dovjak

Prof. Dr. Janja Vaupotic

Prof. Dr. Fumito Maruyama

Dr. So Fujiyoshi

Deadline for manuscript submissions:

30 November 2024

Message from the Guest Editors

An intervention in the built environment can be sustainable if it has no negative impacts on health and the environment. In today's era of extensive building construction and renovation, health and well-being criteria are often disregarded or only given secondary importance. Poor indoor air quality, dampness, pathogenic microbes/microbiome dysbiosis, excessive noise and poor room acoustics, lack of daylight, non-ergonomics, and several architectural barriers are problems of indoor environmental quality (IEQ), which occupants face on a daily basis.

This Special issue of Sustainability titled "Sustainability and Indoor Environmental Quality" provides an international forum for the dissemination of the latest original research, achievements, and developments in many areas of the built environment, sustainability, and all fields of IEQ. It covers the whole life cycle of residential and non-residential buildings and their operating systems. The Special Issue aims to provide a multidisciplinary forum for researchers, designers, users, and manufacturers involved in the different fields of the sustainability and like its uses in

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
