Deadline for manuscript submissions:

31 May 2025

Message from the Guest Editor

Land use and sustainable development play a crucial role in tropical ecosystems due to their fragile nature. Proper land management could dampen the anthropic pressure preserving natural resources, reducing deforestation, and helping to mitigate the impact of climate change. Sustainable practices such as agroforestry, reforestation, and sustainable forest management promote ecosystem resilience and support local communities' livelihoods, fostering long-term environmental stability and socio-economic well-being in tropical regions.

This Special Issue aims to gather groundbreaking outcomes from innovative research and welcomes studies adopting various methodologies including remote sensing, GIS, modelling, and on-field assessment and inventory resources. Diverse approaches and perspectives are encouraged to deepen themes related to sustainable development, particularly in rural communities living in tropical ecosystems with impacts on land use change, environmental resource management, food security, adaptation, and mitigation strategies to face climate change.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
