Message from the Guest Editors

The objective of this Special Issue is to encourage research that will advance the managerial implications for strategic, operational decisions regarding green supply chain.

Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Green product innovation and manufacturing in supply chains;
- Application of emerging technologies in supply chains for sustainability;
- Consumer behavior in green supply chain management;
- Data-driven supply chain operations for sustainability;
- Supply chain management considering low-carbon manufacturing, warehousing and transportation;
- Operational strategies of supply chains towards “carbon neutrality”;
- Digital twin technology for sustainable supply chains;
- Recycling economy and closed-loop supply chains in promoting sustainability;
- Governance and regulation scheme design in low-carbon supply chain management;
- Supply chain design and redesign with renewable energy or energy-saving technologies;
- Sustainable operations in platform-based supply chains;
- Green supply chain operations in the context of the

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
