### Message from the Collection Editors

We look for papers with theoretical insights, empirical data analysis, case studies or other suitable methods to shed new light on a variety of lines of inquiry, such as:

- repositioning/reconceptualizing the role of firm size in the context of sustainable innovation management;
- assessing which aspects of sustainable innovation management (strategic orientations, organizational structure, business models, firms' openness, etc.) are mainly influenced by firm size;
- assessing which are the specificities characterizing sustainable innovation practices, processes, and outcomes that may help to revisit the role of firm size;
- reassessing the influence of factors affecting practices, processes, and outcomes related to sustainable innovations in light of the potential moderating influence of firm size;
- evaluating the moderating/mediating factors of the relationship between firm size and sustainable innovation management practices, processes, and outcomes.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
