Message from the Guest Editors

Dear Colleagues,

This Special Issue will support researchers, developers, and decision-makers by providing a comprehensive platform to gather the most recent studies on the following topics:

- Solar resources assessment;
- Atmospheric turbidity and its impact on solar collectors;
- Solar thermal collectors;
- Hybrid thermal-photovoltaic collectors;
- Solar photovoltaics;
- Solar heating and cooling;
- The optical performance of solar collectors;
- Solar receivers for low- and high-temperature applications;
- Thermal and thermo-chemical energy storage for solar energy systems;
- Solar fuels;
- Solar chemo-chemical processes;
- Solar water desalination and treatment;
- Solar industrial processes and hybrid systems;
- Integration of solar energy into mining processes;
- Economic assessment of solar energy conversion systems;
- Environmental assessment of solar energy conversion systems;
- Social studies of solar energy conversion systems;
- Solar energy and sustainable development.

Dr. Omar Behar

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
